Subject: Jerry's Pond

Dear Neighbor,

We received your email regarding GCP's corporate headquarters property in Cambridge. A number of other neighbors also sent emails with suggestions for the Jerry's Pond area, including some who have voiced strong opposition to any development.

Our Cambridge headquarters site is a valuable asset to GCP. We remain focused on launching GCP as a new public company and have not developed our long-term plans for the site. However, we will continue to evaluate options to use the property for business purposes, and will make appropriate efforts to communicate significant plans in the future.

Our goal is to always perform as a reliable corporate neighbor by demonstrating ongoing commitment and support for the local community. Our corporate initiatives have ranged from sustainability investments at our headquarters facility, community stewardship efforts such as mentoring students and sponsoring sports programs, clearing pathways of snow for T access, and providing parking to neighbors and visitors of Russell Field sporting events. GCP will continue to contribute to the community in this way.

Thank you,
Karen
